

Here's instructions on how to install it for android devices. The process might be different for iPhones.

1. install teamspeak from google play. Note that this app costs for mobile devices The computer version is free. At the time when it was 80% off it cost 99 cents. Download it from <https://play.google.com/store/apps/details?id=com.teamspeak.ts3client>
2. After installing it open it and follow instructions. You dont need to setup a myteamspeak account.
3. After that you will see a icon with a green plus sign. Click it

4. Now enter in the following settings, replace yourname with the nickname you want to be(the picture is on the next page).

5. Scroll down and click the "Save" button and that is it. When you reopen the app you will see delphijustin connection icon and just click it.
